

Landscape photography workshops

www karenthorburn com

Hello! I'm Karen Thorburn.

If you're searching for landscape photography workshops in the Scottish Highlands, then look no further!

I'd love it if you'd join me in Scotland's great outdoors to develop your landscape photography skills.

You'll learn from one-to-one tuition in the field and critique sessions.

All of this will be delivered in a positive way, with the intention of inspiring you! Unlike many other professional photographers, I don't have a huge ego, and I won't dent your confidence!

From beginners to more experienced photographers

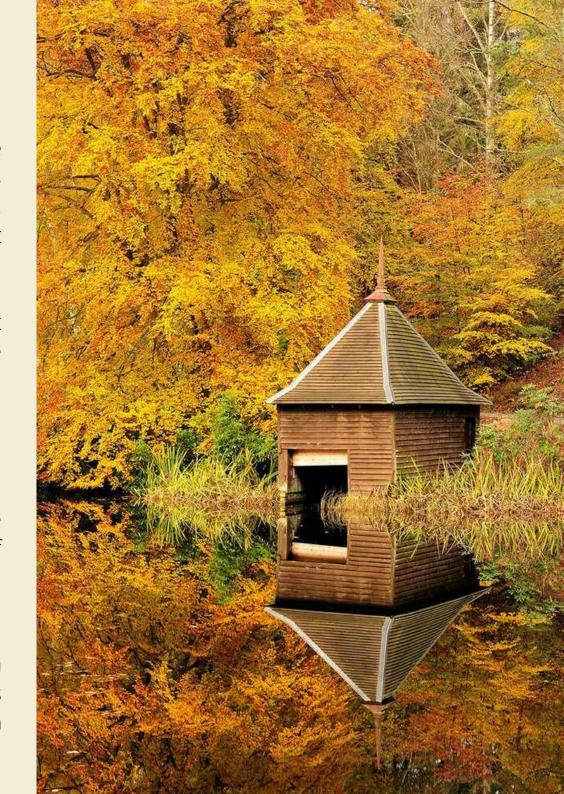

My workshops are suited to beginners and more experienced photographers alike. Most of my clients either own a DSLR or mirrorless camera system. However, I've run successful days out with only compact cameras and mobile phones!

I firmly believe that the photographer is more important than the camera. This means I can help you to improve your skills regardless of the technology you're using.

From auto to manual in a day!

Some of my clients already have a working knowledge of camera settings. For others, the whole business of ISO, apertures and shutter speeds is new.

I'll establish your current level of expertise and will build on this over the course of the workshop. I promise I can get you from auto to manual mode in a single day! This is regardless of the level of knowledge you bring with you.

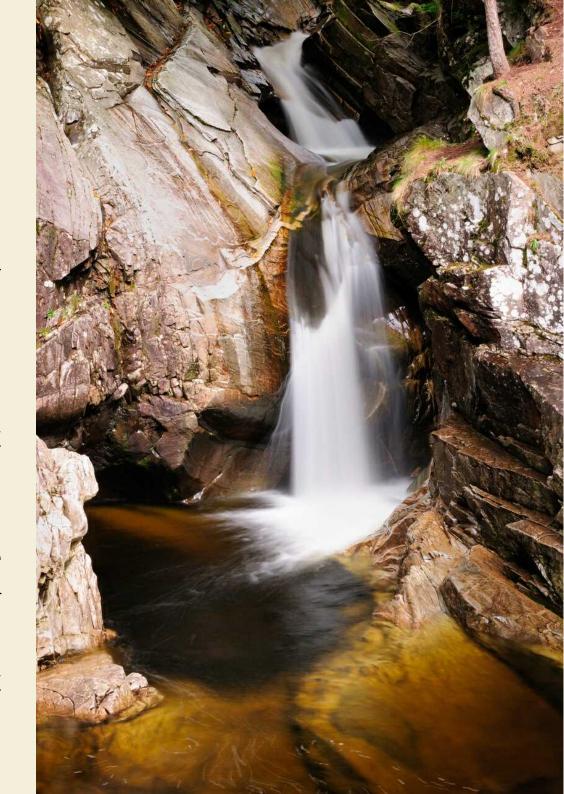

Perfecting your images in camera

Of course, there's a lot more to capturing great landscape images than knowing which settings to dial into your camera.

I'll pass on a lot of useful advice on composition. We'll also practise different techniques at a range of locations.

Whilst post-production is important, the emphasis will be on perfecting your images in camera. This will leave you with minimal work to do when you next load up your laptop!

I've loved exploring
Scotland with a camera in my hand since early childhood! I look forward to sharing my experience and enthusiasm in some of the best landscapes the Highlands have to offer.

Please browse the workshop packages below for more information.
Alternatively, feel free to contact me for a customised quote for a bespoke package in a location of your choice.

Testimonial...

"I'm so pleased that I booked a photography workshop with Karen at the start of our North Coast 500 tour.

I've been dabbling with my camera off of 'auto' for a while but had not fully got to grips with the manual settings.

Karen quickly assessed my current level of ability and knowledge and built on this starting point. I was rapidly able to make connections between terminology I had heard and its practical application.

There were many 'lightbulb moments' during the day as I developed my understanding. Working one-to-one meant that progress was swift and I came away from the day with many new skills."

LINDA ANDERSON

- **Duration:** 1 day
- ✓ Start / finish: We'll agree a suitable meeting point on the Black Isle, in Inverness, or close by.
- ✓ Suitability: Suitable for beginners and intermediate photographers. All locations are within a short walking distance. Average level of fitness required.

Testimonial...

"I spent a delightful day in Karen's company. She took me through numerous aspects of landscape photography, pitching her input to the level of my (limited) expertise but building on her teaching as the day progressed.

I attended the workshop on my own but Karen is very easy to get along with and the day passed quickly and very comfortably.

It's also clear that she can 'up her game' with those who are much more experienced than me.

Karen has followed this up with her own eBook summarising much of the advice she gave, together with links to useful podcasts.

All in all, this was a very worthwhile and enjoyable day.

I thoroughly recommend it!"
